ZENTSURA AEB-ETAN

Zentsurak munduan zehar tradizio luzea badu ere, **2021etik** aurrera protagonismo handia hartu du **Ameriketako Estatu Batuetako eskoletan** gertatzen ari denak, haurrak babesteko aitzakiarekin.

PEN America elkarteak salatu duenez, **2024-2025 ikasturtean 6.870 zentsura kasu** atzeman dira 23 estatutako eskola liburutegietan, bereziki Florida, Texas eta Tennesseeen.

Zentsura defendatzen duten erakundeek **familia eredu tradizionaletik eta heterosexualitatetik aldentzen diren diskurtsoak eskoletatik atera nahi dituzte, arraza, genero eta sexu aniztasuna ezabatuz.**

Amerikako Biblioteken Elkartearen esanetan, egun 100 lege proiektu baino gehiago daude bilatzen dutenak, alde batetik, **"haurrentzat kaltegarria" denaren definizioa zabaltzea** eta, bestetik, **liburuzainek beraien bildumak osatzeko duten gaitasuna mugatzea.**

Interesgune hau aprobetxatu nahi dugu **irakurketa askatasuna defendatzeko.**

CENSURA EN EEUU

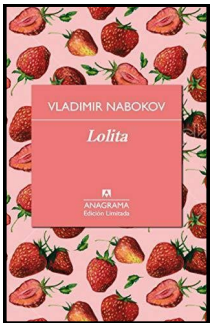

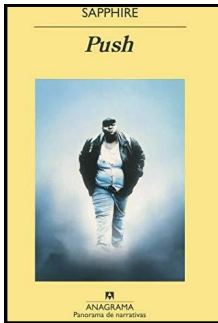

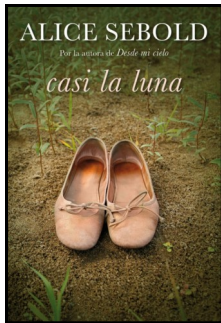

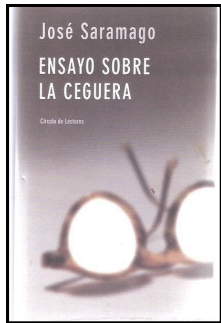

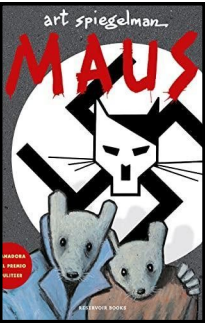

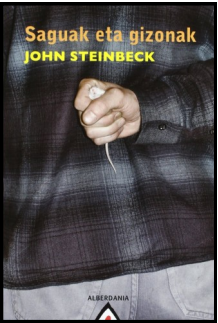

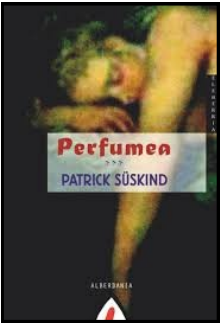

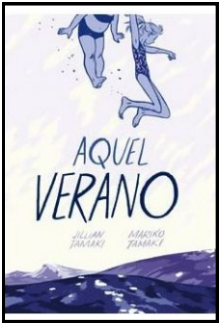

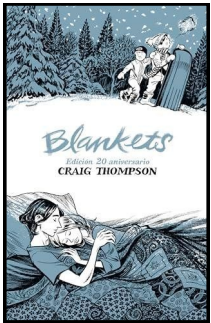

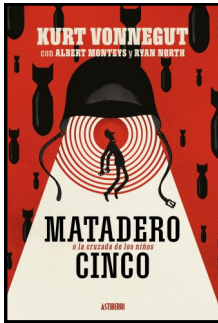

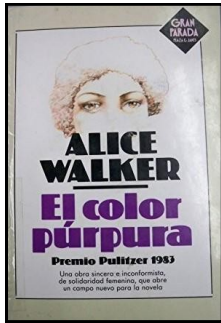

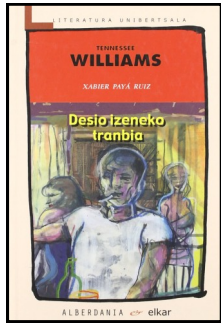

Aunque la censura tiene una larga tradición mundial, a **partir de 2021** ha cobrado un gran protagonismo lo que está ocurriendo **en las escuelas de Estados Unidos** con la excusa de proteger a los niños y niñas.

La asociación PEN América ha denunciado que en el **curso 2024-2025 se han detectado 6.870 casos de censura** en bibliotecas escolares de 23 estados, especialmente en Florida, Texas y Tennessee.

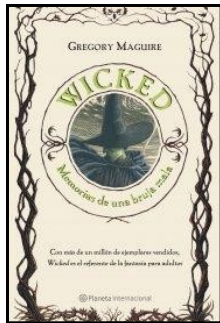

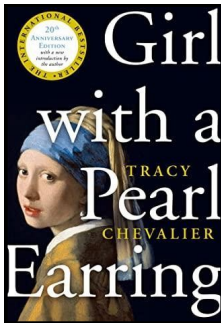

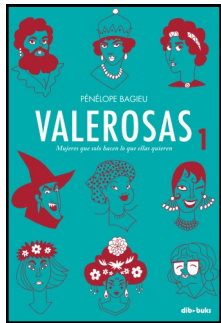

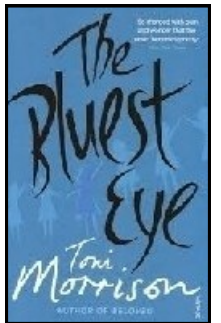

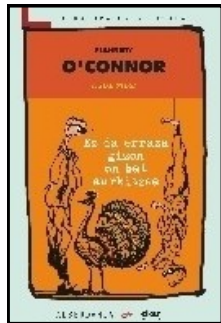

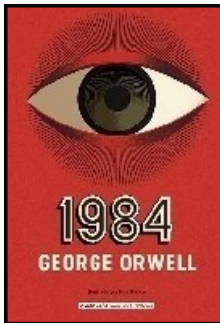

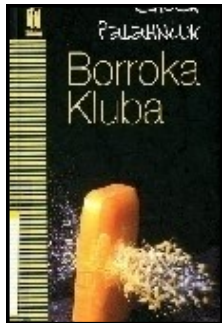

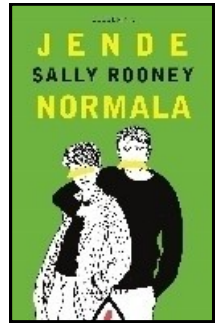

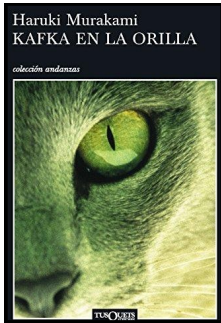

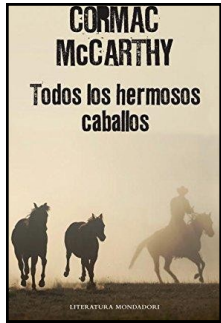

Las organizaciones que defienden la censura pretenden **sacar de las escuelas discursos que se alejan del modelo tradicional de familia y de la heterosexualidad, eliminando la diversidad racial, de género y sexual.** Según la Asociación de Bibliotecas Americanas, en la actualidad hay más de 100 proyectos de ley que buscan, por un lado, **ampliar la definición de "nocivo para la infancia"** y, por otro, **limitar la capacidad de las bibliotecarias y bibliotecarios para completar sus colecciones.**

Queremos aprovechar este punto de interés para **defender la libertad de lectura.**
